

## **ATIP PHAC-A-2021-000648**

1. List of all adverse events following immunization reported to date following COVID-19 vaccination.

Please see attached list.

2. Number of adverse events following immunization that lead to hospitalization or death.

There were a total of 198 deaths and 2677 hospitalizations reported to CAEFISS.

3. Number of stillbirths and miscarriages.

There were 39 spontaneous abortions (miscarriages) and 8 stillbirths reported to CAEFISS.

### Notes:

Adverse events following immunization are events reported because they occurred during a period of time after vaccination. These events are not necessarily caused by vaccination. Reports do not imply a causal relationship between the vaccine and the adverse event.

An adverse event is any untoward medical occurrence which follows immunization. It isn't necessarily causally related to the usage of the vaccine. The adverse event may be any: unfavourable or unintended sign (for example: skin rash), abnormal laboratory finding, symptom or disease.

Reported MedDRA PT Terms may include non-adverse events following immunization such as pre-existing medical conditions, tests and treatments.

One adverse event report, which represents one person, may report on more than one symptom (i.e. a serious or non serious adverse event following immunization, or AEFI).

Data source: Canadian Adverse Events Following Immunization Surveillance System (CAEFISS).

Extract date: March 28, 2022.

Data includes all adverse events following immunization which were reported to the agency before (and including) March 28, 2022 for which the vaccine was administered between December 08, 2020 – March 16, 2022.

AEFIs were coded using the Medical Dictionary for Regulatory Activities (<https://www.meddra.org/>).

## Data Dictionary

Variables	Description
Row Number	Row number.
MedDRA PT Terms	AEFI reports are entered into CAEFISS and coded using MedDRA (MEDical Dictionary for Regulatory Activities), a collection of terms that provide a single standardized medical terminology at the international level. There are five levels to the MedDRA hierarchy. PT (Preferred Term) is the second lowest level of the MedDRA terminology hierarchy and represents a single medical concept.
Count of PT Terms	Number of times the PT term occurred.

Row Number	MedDRA PT Terms	Count of PT Terms
1	Abdominal abscess	3
2	Abdominal discomfort	118
3	Abdominal distension	84
4	Abdominal mass	2
5	Abdominal pain	801
6	Abdominal pain lower	41
7	Abdominal pain upper	230
8	Abdominal rigidity	3
9	Abdominal tenderness	7
10	Abnormal behaviour	3
11	Abnormal dreams	7
12	Abnormal faeces	4
13	Abnormal loss of weight	12
14	Abnormal sensation in eye	8
15	Abnormal uterine bleeding	16
16	Abnormal weight gain	1
19	Abscess	9
20	Abscess neck	1
21	Abscess rupture	1
22	Abscess sterile	5
23	Abulia	1
24	Acidosis	2
25	Acne	28
26	Acne cystic	2
27	Activated partial thromboplastin time prolonged	1
28	Acute aseptic arthritis	3
29	Acute cardiac event	4
30	Acute coronary syndrome	18
31	Acute disseminated encephalomyelitis	1
32	Acute kidney injury	57
